GUIDEBOOK

MY SMART GLASSES GUIDEBOOK

THE KEY TO YOUR SMART GLASSES

Explore infinite possibilities by connecting your tooz Smart Glasses to the My Smart Glasses app. With this companion app, you can set up and manage your glasses, compatible apps and smart functionality. tooz Smart Glasses enable you to stay present and better connected with the world, by delivering content and notifications via My Smart Glasses discreetly into the wearer's field of view.

GETTING STARTED

1. Unfold the charged glasses and put them on.

2. The animated tooz logo will show during boot up, followed by the start screen showing the time, battery status and cardinal direction. If you do not see this screen, please make sure that the glasses are charged. Restart the glasses by folding and unfolding the temples.

3. Open My Smart Glasses, accept the Terms of Use and confirm that you have read the Privacy Statement. Finish setting up the glasses and follow the onboarding screens.

4. To put the glasses into Pairing Mode, swipe backwards on the touchpad of the glasses towards the ear and long tap at the end of the touchpad.

5. In My Smart Glasses, tap 'Connect Glasses' and accept the Bluetooth pairing request.

Pairing Mode

TROUBLESHOOTING

If the tooz Smart Glasses do not appear in My Smart Glasses, please try the pairing process again by tapping 'Scan Again'.
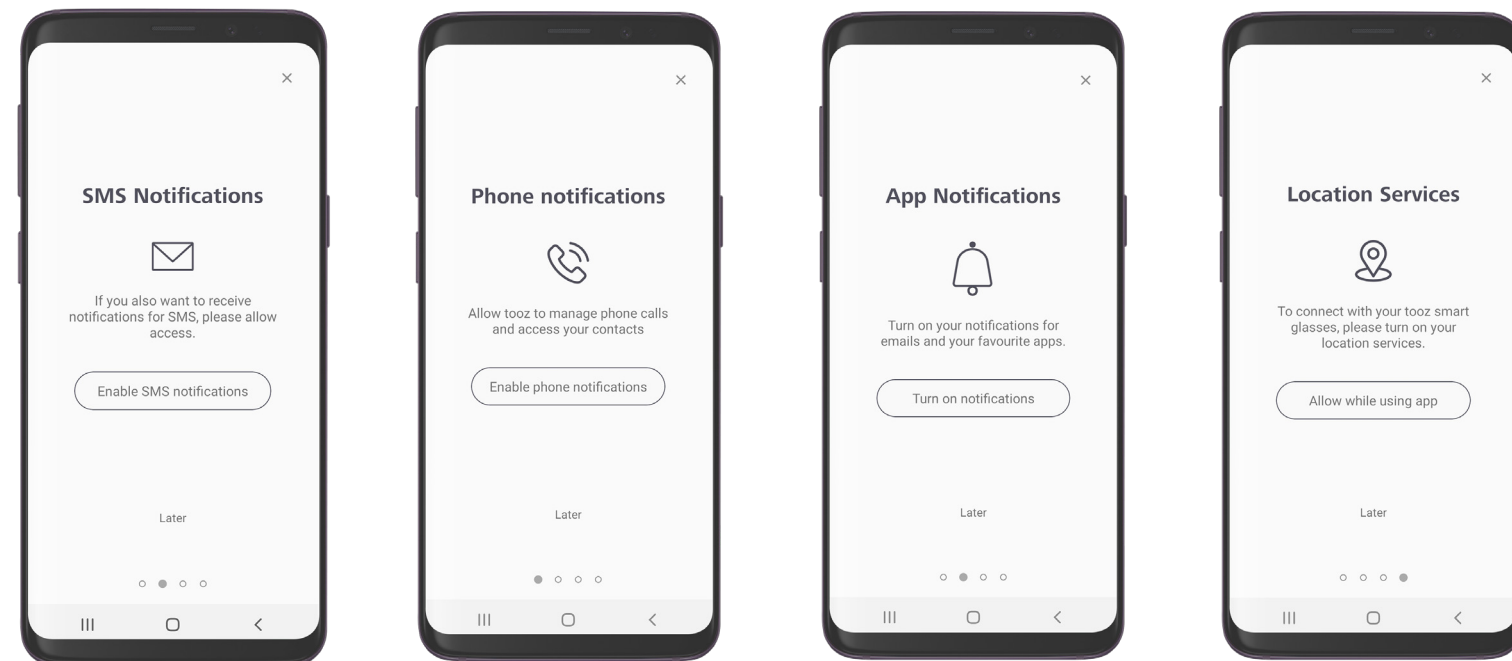

If the tooz Smart Glasses were paired to another device and you switch to a new one, you will need to pair the glasses with the device again.

Please note that the tooz Smart Glasses will stay active in Bluetooth pairing mode for five minutes. After this time, you may need to put the glasses into pairing mode again by using the touchpad gesture.

ONBOARDING

Once you have accepted the Terms of Use and read the Privacy Statement, you will be prompted to continue setting up your tooz Smart Glasses. Follow the instructions to enable SMS, Phone, App Notifications and location services. You can also change these options in the app settings later.

APP VIEWS

Once your tooz Smart Glasses are connected, you will be able to see and manage the current status of the glasses. Access the glasses' Settings using the gear icon in the top right hand corner. Swipe up from the Home Screen to the Grid View, which displays the integrated functions by tooz and third-party applications.

Open individual apps by clicking on the icons. The screen shown from the app will also be displayed in your field of view via the tooz Smart Glasses. All open apps will be shown in the stack view, which you can access by tapping on the app screen.

USING THE GLASSES AS A HEADSET

Your tooz Smart Glasses can also be used like a regular Bluetooth headset. To enable this feature, connect the glasses via the prompt in the app or in your device's Bluetooth Settings and allow access to Calls and Audio.

GOOGLE ASSISTANT APP ACTIONS

Use Google Assistant with My Smart Glasses and control your tooz Smart Glasses completely hands-free. It is recommended to have the tooz Smart Glasses connected as a Bluetooth headset before using the Voice Assistant.

To activate the assistant, long tap on the touchpad and try some of the following phrases after invoking the Google Assistant.

'Open My Smart Glasses and:

… show me the weather for (City)'.
… show me the time'.
… take me to (City/ Place/ Address)'.
… show me the Demo Gallery'.

Activate Voice Assistant
